In Partnership with:

Animal Crossing Data Sheet

Geographic location: (link to map, UTM, description)	
Highway / Road:	
Land ownership on either side of road: (public, private, crown, etc.)	
Type of crossing: (overpass, underpass)	
Type of construction project: (standalone or part of highway improvement, i.e. re-alignment, twinning, re-surfacing)	
Construction date:	
Construction length: (i.e. time frame)	
Fencing: (length of fence installed, existing or new as part of animal crossing project)	
Project cost: (construction, fencing, signage, etc.)	
Construction materials: (crossing structure, plantings, etc.)	

<p>Crossing design features: (specific features of crossing, link/add design drawings if available)</p>	
<p>Consultants: (engineers, designers, biologists, ecologists, etc.)</p>	
<p>Agencies: (provincial government, federal government, private, partnership, etc.)</p>	<p>Initiating agency:</p> <p>Managing agency:</p>
<p>Project funders and financial contribution if known: (government, private, partnership, etc.)</p>	
<p>Relevant policies: (environmental, design, construction, etc.)</p>	
<p>Associated studies completed: (environmental assessment, ecology, collision data, etc.)</p>	
<p>Monitoring reports: (pre-construction, post-construction, collision data, animal use)</p>	
<p>Target species:</p>	
<p>Public engagement: (signage, information board, citizen science opportunity, lookouts, etc.)</p>	
<p>Media related to crossing: (link if available)</p>	
<p>Site images: (link to photograph, add photo credit, or attach at bottom of document)</p>	
<p>Contact Info: (managers, decision makers, researchers, etc.)</p>
